

AF 280 S

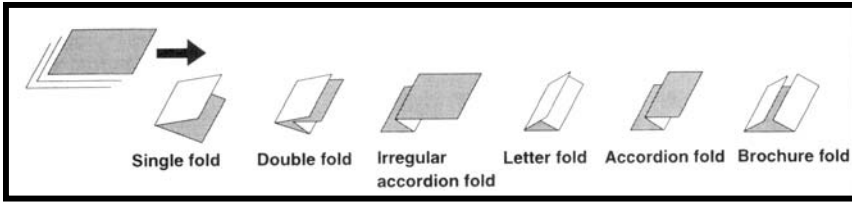

Quick, quiet, and powerful folding for any size office.

AF 280S has six popular pre-programmed folds and a multitude of custom folds, crisp and accurate folding for a variety of applications is accessed at the touch of a button, the AF 280 S is an excellent solution for your folding requirements. **Unique sound absorbers** inside the machine dramatically reduce the amount of sound not only when folding, but also when fold stoppers are moving. The machine offers high-speed folding up to 280 sheets per minute.

The patented feed system ensures reliable feeding and accurate folds for a wide range of paper sizes, weights, and stocks. The unit will handle up to 90lb. index stock. No manual adjustments are needed, as the AF 280S automatically recognizes five popular paper sizes - letter, legal, ledger, ½-letter, and ½-legal. When powering back on, the fast set-up mode allows the AF 280S to automatically recall the last job, which is ideal for maintaining job accuracy.

Simply load the **automatic elevating feed tray** with up to 500 sheets, select the fold type, and hit start. A four-digit counter may be set to ascend or descend. Additionally, the batch mode allows the operator to input the exact number of sheets to be folded in each batch. The operator is able to select between a 3, 5, or 10-second delay in between each batch.

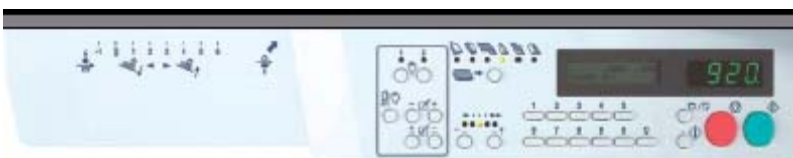

AF 280 S

Specification	Description
Paper Size	Max 11.7" x 17" Min 5.1" x 7.2"
Paper Type	Bond, NCR, some coated and card stock 16 lb to 90 lb
